## HERO XCO VAL GARDENA

TIME 10 AM

LOCATION S. Cristina Val Gardena, Nordic Skiing Centre of Monte Pana

Make way for the new stars!

The XCO Val Gardena opens the HERO 2015 World Marathon Week: a cross-country race on a 4 km circuit and 160 hm elevation gain. Bikers will have to complete the circuit various times depending on their category. As can be expected from an Olympic discipline, athletes will face hard, steep climbs and technical, demanding downhill rides. All this set against the backdrop of stunning views. The Val Gardena XCO is part of the cross-country South Tyrol Championship. It attracts numerous pro and amateur bikers to the starting line. However, the limelight is directed on the local youth. HERO has devised a race which acts as a stepping stone towards higher goals. Both bikers and audience will have a time to remember thanks to the spectacular location of the Nordic Skiing Centre in Monte Pana, at the foot of the Sassolungo, Val Gardena's symbol.

## HERO BIKE NIGHT

TIME 09 PM

LOCATION Ortisei, S. Antonio square

A ride down memory lane: the Amarcord bike

The mountain bike as we know it was the last evolutionary step of the bike or the velocipede, as it was known at the start of the last century. Take a stroll back in time with us to celebrate the HERO Bike Festival: around 20 members of the period bike club "bici d'epoca", dressed in jerseys of the time, will showcase their historic bikes, genuine heirlooms from the 19th and beginning of the 20th century. We'll travel back to the origins of the bike, the birth of the mountain bike and its use and development in the Dolomites. Videos from that period, live music with Noluntas, interviews and stories of experts will bring us a somewhat vintage and ancient atmosphere. Unmissable.

## **SELLARONDA BIKE DAY**

**TIME** 08:30 AM - 03:30 PM

**LOCATION** 4 passes around the Sella Group

Biking in the mountains, surrounded by silence.

In the last ten years, the roads of the four Dolomite passes have been witness to a magnificent, yet ever so quiet, event. The Sellaronda Bike Day: on this day no traffic is allowed on the roads and 20,000 (yes, you've read that right!) bikers swarm onto the roads of Passo Sella, Passo Gardena, Passo Pordoi, and Passo Campolongo. This isn't a race. This isn't a competition. Therefore no registration is needed. It's a long bike ride around the Sella Group, in the heart of the Dolomites. From 8.30 a.m. to 3.30 p.m. the roads of the four passes will be free of motorised traffic.

**STARTING POINT:** Start from the valley villages around the Sella Group: Canazei, Arabba, Corvara, and Selva Val Gardena. The official starting point in Val Gardena is at the Maciaconi crossroads in Selva on the border to S. Cristina at 8.30 a.m. For safety reasons, please bike anticlockwise. We highly recommend you to use the helmet.

**HIGHLIGHT:** In occasion of the tenth edition of the Sellaronda Bike Day, members of the period bike club "bici d'epoca" will visit S. Cristina Val Gardena at the starting point with their historic bikes.

### **TECHNICAL ZONES ON THE TRACK**

- Bivio Miramonti (Passo Gardena/Passo Sella)
- Passo Pordoi
- Arabba

Technical assistance provided by Vittoria. Spares for purchase only.

## **'GREEN TOURISM' ROUNDTABLE**

TIME 08 PM

LOCATION Selva Val Gardena, Tublà da Nives

Green tourism... the future?

In the last decades, the Dolomites have seen a rising number of tourists and mountain lovers coming to visit the region. The time has come to share some insight on the future of this natural area. Our seminar reflects this: a debate on green, sustainable tourism in the Dolomites. The heart of the public debate will be the development of summer tourism and mobility in the Dolomite valleys now that they've become a UNESCO World Heritage Site. We will endeavour to answer all those questions which tourism operators have been asking all these years: is this the right direction? Which steps should be taken next to allow green tourism to flourish to the benefit of people and nature? These are only some of the questions our experts will try to answer.
